

# Rainbow, Rainbow

## Words

There are days when it rains  
But the sun still shines  
And light and water and air combine  
They make colours in magic bands  
Reach out and touch them - with your hands

Red is a cherry, it's a fruit to eat  
Orange is another, makes my lunch complete  
Yellow's a banana - it's a tasty snack  
Put it in your mouth before it goes black

Green is an apple waiting on my plate  
Blue is plum, bake it in a cake  
Indigo's a berry with a taste so fine  
And purple's a grape hanging on the vine

Rain come, rain go  
Come and make our garden grow  
Rainbow, rainbow  
Colours in the sky
